Taking Innovation To A New Level

ITS 5HDP-Super - An energy-efficient heat pump that is a cut above the rest

- Uses the latest compressor technology with the first heat pump specific compressor.
- Produces 85°C water where other heat pumps produce 65°C water at the same gas pressure.
- Engineered for comfort and class leading efficiency that will save you thousands each year.
- Maximum hot water delivery via the ITS patented integration technique.
- Environmentally friendly R134a gas.
- Unequaled life expectancy.
- Quiet and unobtrusive.
